What is the MODEL UNITED NATIONS?

Model United Nations is an educational simulation of the United Nations in which students from around the globe gather to discuss complex global issues such as human rights, international security and sustainable development. This academic activity encourages the students to transcend interpersonal barriers, partake in healthy discussions and see efficient solutions for tackling the world's most pressing issues.

At a MUN conference, students work as the representative of a country, organisation, or person and must solve a problem with other delegates from around the world. MUN teaches participants skills like research, public speaking, debating, writing, critical thinking, teamwork, and leadership. MUN is meant to engage students and allow them to understand current world issues and world politics better.

Why MODEL UNITED NATIONS?

Model UN offers opportunities for anyone who wants to learn about the processes of international diplomacy. Each country represented at a conference needs a diverse delegation to be successful. To succeed, the delegation must have followers and leaders, researchers to determine a national policy, writers to convey the country's position and speakers to present and support that position to the body.

A critical skill you learn while participating in MUN conferences is diplomacy, the art of negotiation, which is a handy skill to acquire. Participants learn how to problem-solve as they are given real-life world issues discussed by the United Nations. They will also become more knowledgeable about these world issues as they explore and research the topic given to them.

ABOUT KUMARAGURU MUN

KMUN is a paramount event of the Kumaraguru Model United Nations Society. It is an initiative of the Kumaraguru MUN Society that aims to reach out to student leaders from colleges and institutions across the country. KMUN brings together more than 300 enthusiastic and impressionable minds to offer fresh approaches to urgent global issues, providing aspiring diplomats with a platform to engage in constructive dialogue and exchange ideas and opinions. The inaugural edition of KMUN, held in 2023, marked the beginning of a vibrant tradition as an intra-institutional conference within Kumaraguru. Building on this foundation, the 2024 edition evolved into a prestigious inter-institutional conference, drawing participation from both schools and colleges, and fostering an environment of diverse perspectives and collaborative problem-solving.

With the third edition in 2025, we aspire to take MUNing to a whole new, enriching, and enjoyable experience for our delegates. Our aim this year is not only to elevate debate and discussion but also to further expand our reach to institutions across the nation, strengthening the presence and impact of our MUN society.

The United Nations Security Council (UNSC) is one of the six principal organs of the United Nations, entrusted with the critical duty of maintaining global peace and security. In UNSC you are not just delegates but diplomats representing your nations on the world stage. The delegates' insights will drive discussions on critical global issues and geopolitical challenges. The delegates will have to negotiate resolutions, and grapple with the complex dynamics of international relations. With the vision of shaping the future of the interconnected world, the UNSC of K-MUN proudly calls for delegates to step into the world of leaders, peacemakers, diplomats to address the paramount challenges of the global stage.
